Dead Cert Dick Francis 1998-03-26 Dead Cert is a classic mystery from Dick Francis, one of the greatest thriller writers of all time. 'Admiral met

the fence perfectly. He rose to it as if flight were not only for birds. And he fell.' Alan York's friend, jockey Bill Davidson, was killed in Admiral's fall. After the race, York visits the fence and discovers

a coil of wire lying beside the fence post and signs of where the wire had been attached. The fall was no accident - but murder. Unable to convince the police of this, York is forced to turn amateur sleuth and is soon on the trail of a ruthless gang of race-fixers operating out of Brighton. Now Alan's caught in a new race: find the gang's leaders before the gang catches up with him . . . Packed with intrigue and hair-raising suspense, *Dead Cert* is just one of the many blockbuster thrillers from legendary crime writer Dick Francis. Other novels include the huge bestsellers *Dead Heat*, *Under Orders* and *Silks*. The Dick Francis legacy continues through his son Felix Francis: *Refusal* is his latest novel, following *Bloodline* and *Gamble*. Praise for the Dick Francis novels: 'The narrative is brisk and gripping and the background researched with care . . . the entire story is a pleasure to relish' Scotsman 'Dick Francis's fiction has a secret ingredient - his inimitable knack of grabbing the reader's attention on page one and holding it

tight until the very end' Sunday Telegraph 'Still the master' Racing Post 'The master of suspense and intrigue' Country Life Dick Francis was one of the most successful post-war National Hunt jockeys. The winner of over 350 races, he was champion jockey in 1953/1954 and rode for HM Queen Elizabeth, the Queen Mother, most famously on Devon Loch in the 1956 Grand National. On his retirement from the saddle, he published his autobiography, *The Sport of Queens*, before going on to write forty-three bestselling novels, a volume of short stories (*Field of 13*), and the biography of Lester Piggott. Dick Francis died in February, 2010, at the age of 89, but he remains one of the greatest thriller writers of all time.

The Woodchipper Murder Arthur Herzog

2001-05-06 Even though the Newtown,

Connecticut, police listed Helle Crafts'

disappearance as a routine missing person case,

Keith Mayo, a private investigator, knew the Danish-born mother of three hadn't skipped town nine days before Thanksgiving.. Rita Buonanno remembers the words exactly: "If anything happens to me don't think it was an accident."

Helle Crafts was last seen on November 18,

1986. In the style of a brilliant detective novel,

Arthur Herzog skillfully re-creates the hour-by-hour circumstantial details that inform this grisly

true-crime narrative. We observe dispassionate

Richard Crafts as he buys a truck with a pintle hook for towing heavy equipment, promised for

delivery before November 18. A day later he

reserves a Badger Brush Bandit woodchipper.

The Long Dark Tea-Time of the Soul Douglas

Adams 2011-06-01 The second Dirk Gently book by Douglas Adams, *The Long Dark Tea-Time of the Soul* is a witty detective story perfect for fans of his phenomenally successful *The Hitchhiker's Guide to the Galaxy*. When a passenger check-in desk at Terminal Two, Heathrow Airport, shot up through the roof engulfed in a ball of orange flame, the usual people tried to claim responsibility. First the IRA, then the PLO and the Gas Board. Even British Nuclear Fuels rushed out a statement to the effect that the situation was completely under control, that it was a one in a million chance, that there was hardly any

radioactive leakage at all and that the site of the explosion would make a nice location for a day out with the kids and a picnic, before finally having to admit that it wasn't actually anything to do with them at all. No rational cause could be found for the explosion – it was simply designated an act of God. But, thinks Dirk Gently, which God? And why? What God would be hanging around Terminal Two of Heathrow Airport trying to catch the 15:37 to Oslo? 'A thumping good detective-ghost-horror-who dunnit-time travel-romantic-musical-comedy-epic' - Douglas Adams, on Dirk Gently's Holistic Detective Agency. Continue this surreal series with the unfinished *The Salmon of Doubt*.

Identifying the Culprit National Research
Council 2015-01-16 Eyewitnesses play an
important role in criminal cases when they can
identify culprits. Estimates suggest that tens of
thousands of eyewitnesses make identifications
in criminal investigations each year. Research on
factors that affect the accuracy of eyewitness
identification procedures has given us an
increasingly clear picture of how identifications
are made, and more importantly, an improved
understanding of the principled limits on vision
and memory that can lead to failure of
identification. Factors such as viewing conditions,
duress, elevated emotions, and biases influence
the visual perception experience. Perceptual
experiences are stored by a system of memory

that is highly malleable and continuously
evolving, neither retaining nor divulging content
in an informational vacuum. As such, the fidelity
of our memories to actual events may be
compromised by many factors at all stages of
processing, from encoding to storage and
retrieval. Unknown to the individual, memories
are forgotten, reconstructed, updated, and
distorted. Complicating the process further,
policies governing law enforcement procedures
for conducting and recording identifications are
not standard, and policies and practices to
address the issue of misidentification vary
widely. These limitations can produce mistaken
identifications with significant consequences.
What can we do to make certain that eyewitness
identification convicts the guilty and exonerates
the innocent? Identifying the Culprit makes the
case that better data collection and research on
eyewitness identification, new law enforcement
training protocols, standardized procedures for
administering line-ups, and improvements in the

handling of eyewitness identification in court can increase the chances that accurate identifications are made. This report explains the science that has emerged during the past 30 years on eyewitness identifications and identifies best practices in eyewitness procedures for the law enforcement community and in the presentation of eyewitness evidence in the courtroom. In order to continue the advancement of eyewitness identification research, the report recommends a focused research agenda. Identifying the Culprit will be an essential resource to assist the law enforcement and legal communities as they seek to understand the value and the limitations of eyewitness identification and make improvements to procedures.

[The Last Precinct](#) Patricia Cornwell 2008-09-04

The eleventh book in the Kay Scarpetta series, from No. 1 bestselling author Patricia Cornwell. 'America's most chilling writer of crime fiction' The Times Physically and psychologically bruised by her encounter with the killer Chandonne, Dr Kay Scarpetta has to leave her home in the hands of the police team investigating the attack.

She finds shelter with an old friend, Anna Zenner, but it is not the haven of security she needs when she discovers that Anna has been subpoenaed to appear before a Grand Jury which is investigating Scarpetta for murder. Kay knows she is being framed and she also knows she can trust no-one. Meanwhile it appears that Chandonne killed a woman in New York before his murderous spree in Virginia, but when Scarpetta looks more closely into that case with the NY prosecutor Jaime Berger, proof of his guilt is far from certain - in fact she begins to believe that he may not be the perpetrator of any of the crimes he is accused of. On a hillside near the cozy Irish village of Glennkill, a flock of sheep gathers around their shepherd, George, whose body lies pinned to the ground with a spade. George has cared devotedly for the flock, even reading them books every night. Led by Miss Maple, the smartest sheep in Glennkill (and possibly the world), they set out to find George's killer. The A-team of investigators includes Othello, the "bad-boy" black ram; Mopple the Whale, a Merino who eats a lot and remembers everything; and Zora, a pensive black-faced ewe with a weakness for abysses. Joined by other members of the richly talented flock, they engage in nightlong discussions about the crime, wild metaphysical speculations, and embark on reconnaissance missions into the

village, where they encounter some likely suspects. Along the way, the sheep confront their own all-too-human struggles with guilt, misdeeds, and unrequited love. Funny, fresh, and endearing, it introduces a wonderful new breed of detectives to Canadian readers.

The Design of Everyday Things Don Norman
2013-11-05 Design doesn't have to be complicated, which is why this guide to human-centered design shows that usability is just as important as aesthetics. Even the smartest among us can feel inept as we fail to figure out which light switch or oven burner to turn on, or whether to push, pull, or slide a door. The fault, argues this ingenious -- even liberating -- book, lies not in ourselves, but in product design that ignores the needs of users and the principles of cognitive psychology. The problems range from ambiguous and hidden

controls to arbitrary relationships between controls and functions, coupled with a lack of feedback or other assistance and unreasonable demands on memorization. The Design of Everyday Things shows that good, usable design is possible. The rules are simple: make things visible, exploit natural relationships that couple function and control, and make intelligent use of constraints. The goal: guide the user effortlessly to the right action on the right control at the right time. The Design of Everyday Things is a powerful primer on how -- and why -- some products satisfy customers while others only frustrate them.
