islands' resources to launch an offensive against America's western coast...

One Word Kill Mark Lawrence
2019-05 Ready Player One meets Stranger Things in this new novel by the bestselling author who George RR Martin describes as "an excellent writer." In January 1986, fifteen-year-old boy-genius Nick Hayes discovers he's dying. And it isn't even the strangest thing to happen to him that week. Nick and his Dungeons & Dragons-playing friends are used to living in their imaginations. But when a new girl, Mia, joins the group and reality becomes weirder than the fantasy world they visit in their weekly games, none of them are prepared for what comes next. A strange--yet curiously familiar--man is following Nick, with abilities that just shouldn't exist. And this man bears a cryptic message: Mia's in grave danger, though she doesn't know it yet. She needs Nick's help--now. He finds himself in a race against time to unravel an impossible mystery and save

the girl. And all that stands in his way is a probably terminal disease, a knife-wielding maniac and the laws of physics. Challenge accepted.

Darkness Descending Harry Turtledove 2007-04-01 Now Turtledove returns to the story of a World War in a world where magic works, with this moving second volume. Algarvian soldiers corral Kaunians to send them west, towards Unkerlant, to work camps. The Kaunians left behind are worried about what the work camps might mean, but are assuaged by Algarvian lies. In Kuusamo, scholars race to find the relation between the laws of similarity and contagion. Rumors abound about the Algarvian work camps, rumors most cannot believe as true. But the mages know, for they can feel the loss of life in their very souls. Turtledove's cast of characters in *Darkness Descending* takes on its own life as the reader sees the war from all sides and understands how the death and destruction benefits no one, not even the victors. A Different Flesh Harry Turtledove 2015-06-09 This novel by the New York Times–bestselling “master of alternate history” explores an America reshaped by a twist in prehistoric evolution (Publishers Weekly). What if mankind’s “missing link,” the apelike *Homo erectus*, had survived to dominate a North American continent where woolly mammoths and saber-toothed tigers still prowled, while the more advanced *Homo sapiens* built their civilizations elsewhere? Now imagine that the Europeans arriving in the New World had chanced on

these primitive creatures and seized the opportunity to establish a hierarchy in which the sapiens were masters and the “sims” were their slaves. This is the premise that drives the incomparable Harry Turtledove’s *A Different Flesh*. The acclaimed Hugo Award winner creates an alternate America that spans three hundred years of invented history. From the Jamestown colonists’ desperate hunt for a human infant kidnapped by a local sim tribe, to a late-eighteenth-century contest between a newfangled steam-engine train and the popular hairy-elephant-pulled model, to the sim-rights activists’ daring 1988 rescue of an unfortunate biped named Matt who’s being used for animal experimentation, Turtledove turns our world inside out in a remarkable science fiction masterwork that explores what it truly means to be human.

Colonisation: Second Contact Harry Turtledove 2012-08-30 Halfway through World War II aliens invaded Earth. They were repelled - but now, years

later they are back . . . This is the first volume in the three-part Colonisation series, which follows the Worldwar trilogy. The whole sequence will conclude with Homeward Bound. Through a mixture of guts, ingenuity and sheer luck, Earth managed to defend herself from her ruthless alien would-be conquerors. The 'Race' was fought to a bloody standstill despite its awe-inspiring weaponry and experience of merciless conquest. Thousands died from enemy fire, many more from the smouldering nuclear-scarred fall-out sites. An uneasy ceasefire reigns over this divided globe, as both sides strive to test their strength through more subtle techniques. But now, years later, this delicate equilibrium has been shattered. For the first assault was only an advance guard. Now, a whole new fleet orbits the planet. The real colonists have arrived, fresh and unwilling to accept old compromises. 'The wizard of If.' host of ravaging beasts from the dark underground. The stunning sequel to *Werenight*, Hugo Award-winning author Harry Turtledove's *Prince of the North* is a magnificent work of fantasy fiction. Through the Darkness Harry Turtledove 2007-04-01 In Harry Turtledove's third novel in the *Darkness* series, a young Kaunian girl is forced to remain hidden while her Forthwegian savior braves the rough, Algarvian-controlled streets to earn their keep. The scholars of Kuusamo are no closer to understanding the bloodless magic that may win the war-and time is short. Kuusamo has joined into an unsteady alliance with Lagoas and Unkerlant. No one kingdom trusts another, but they must unite, for it is only together that they can defeat the Algarvian threat. The war is no longer confined to soldiers

and sorcerers. Common folk are joining together to fight from underneath their oppressors, whether they be Algarve or Unkerlant. What those farmer soldiers lack in skill, they make up for in dedication. A dedication that will carry them . . . through the darkness. The Disunited States of America Harry Turtledove 2013-10-02 Justin's having the worst trip ever. He and his mother are Time Traders, traveling undercover to different alternate realities of Earth so they can take valuable resources back to their own timeline. Their mission takes them to Virginia, which is on the verge

of bloody violence with Ohio. Beckie is from California and, like the rest of her world, is unaware that Time Traders exist. The only reason she's in small-town Virginia is because her grandmother dragged her there to visit old relatives. Beckie is just as horrified by the violence and racism of the alternate Virginia as Justin is, and the two are drawn to each other. But when full-fledged war breaks out between Ohio and Virginia, including a biologically designed plague, will either of them manage to get back home? Forget about home: will they make it out alive?

And the Last Trump Shall Sound Harry Turtledove

2020-08-25 A near-future 'alternate history,' And the Last Trump Shall Sound is a series of three stories detailing our future as a divided nation. A politically fractured nation watches as the Republicans solidify their hold over the US with a series of electoral victories and judicial appointments. Mike Pence leads the country, succeeding Donald Trump as the flag-bearer of an increasingly populist movement. There are parts of the country, however, that cannot abide by what they view as a betrayal of the nation's founding principles. At what point do these communities break down and the unthinkable suddenly becomes the only possible solution. Harry Turtledove, James Morrow, and Cat Rambo give us three novellas, each

following the other, describing the frightening possible consequences of our increased polarization

Household Gods Harry Turtledove 2013-10-02 Nicole Gunther-Perrin is a modern young professional, proud of her legal skills but weary of childcare, of senior law partners who put the moves on her, and of her deadbeat ex-husband. Following a ghastly day of dealing with all three, she falls into bed asleep - and awakens the next morning to find herself in a different life, that of a widowed tavernkeeper in the Roman frontier town of Carnuntum around 170 A.D. Delighted at first to be away from corrupt, sexist modern America, she quickly begins to realise that her new world is as complicated as her old one. Violence, dirt, and pain are everywhere - and yet many of the people she comes to know are as happy as those she knew in twentieth-century Los Angeles. Slavery is a commonplace, gladiators kill for sport, and drunkenness is taken for granted - but

everyday people somehow manage to face life with humour and good will. No quitter, Nicole manages to adapt to her new life despite endless worry about the fate of her children "back" in the twentieth century. Then plague sweeps through Carnuntum, followed by brutal war. Amid pain and loss on a level she had never imagined, Nicole finds reserves of strength she had never known.

Worlds That Weren't Harry Turtledove 2005-07-05 Four award-winning authors. Four amazing alternate histories. In this collection of novellas, four masters of alternate history turn back time, twisting the facts with four excursions into what might have been. Stirling envisions life "in the wilds of a re-barbarized Texas" after asteroids strike the earth in the 19th century; Sidewise winner Mary Gentle contributes a story of love (and pigs) set in the mid-15th century, as

European mercenaries prepare to sack a Gothic Carthage; and Nebula nominee Walter Jon Williams pens a tale of Nietzsche intervening in the gunfight at the O.K. Corral. The Legion of Videssos Harry Turtledove 2013 Marcus Scaurus, leader of a Roman legion mysteriously transported to a world of magic, defeats an army of rebel mercenaries and returns to the city of Videssos, only to encounter deadly intrigue, treason, and betrayal.

In a world of occupiers and the occupied, of simmering hatreds, shattered lives and pent-up violence, the centre can no longer hold. The Case of the Toxic Spell Dump Harry Turtledove
2013-08-29 David Fisher, an EPA (Environmental Protection Agency) bureaucrat, was not the stuff of which heroes are made. At least he hoped not. All he wanted was a good life with a good wife, and a chance to do his bit for society reviewing magical impact statements (like the one that assesses the effect on local non-life resulting from the introduction of leprechauns

into Southern California, for example) and ensuring that various manufacturers of magical devices did not intentionally or otherwise foul the environment with the sorcerous by-products of their trade. Indeed it would be hard to imagine a more regular and down to earth soul than that of David Fisher of the EPA. No hero he! Then one day David received a call from Washington to investigate a certain Toxic Spell Dump, and suddenly he is up to his neck in skullduggery and magic most foul. Some ancient deity, it seems, is attempting to reopen for business in the L.A. Basin, complete with human sacrifice (open up their hearts and let the sun shine in!) and the destruction of Western Civilization. All that stands in the way is David Fisher - and he's no hero. Until he has to be.

Hotshot wizards will tell you nothing's really changed, but then again, hotshot wizards aren't looking for honest work in Enid, Oklahoma. No paying jobs at the mill, because zombies will work for nothing. The diner on Main Street is seeing hard times as well,

because a lot fewer folks can afford to fly carpets in from miles away. Jack Spivey's just another down-and-out trying to stay alive, doing a little of this and a little of that. Sometimes that means making a few bucks playing ball with the Enid Eagles, against teams from as many as two counties away. And somethimes it means roughing up rival thugs for Big Stu, the guy who calls the shots in Enid. But one day Jack knocks on the door of the person he's supposed to "deal with"--and realizes that he's not going to do any such thing to the young lady who answers. This means he needs to get out of the reach of Big Stu, who didn't get to where he is by letting defiance go unpunished. Then the House of Daniel comes to town--a brash band of barnstormers who'll take on any team, and whose antics never fail to entertain. Against the odds Jack secures a berth with them. Now they're off to tour an America that's as shot through with magic as it is dead broke. Jack will never be the same--nor will baseball. At

Darkness-continues in this, the fifth volume of the series: Jaws of Darkness. The grand conflict for control of the continent of Derlavai rages on, in a battle with all the drama and terror of the Second World War-only the bullets are beams of magical fire, the tanks and submarines are great lumbering beasts, and the fighters and bombers are dragons raining fire upon their targets. Yet hope may be dawning at last. The terrible onslaught of the conquering forces of Algarve-who power their battle magics with the life energy of their murdered victims-begins to founder as it runs into Habbakuk: a sorcerous ship of ice used by embattled nations of Lagoas and Kuusamo to ferry their deadly dragons across the seas to strike at the very heart of Algarvian power. But though the tide has begun to turn, the conflict is far from over. The widely disdained Kaunians still struggle desperately to escape as the Algarvians kill them by the thousands-for life energy, but also simply for the crime of being Kaunian. And as the

deaths of innocent civilians on both sides continue to feed the flames of war, those who have struggled to survive and preserve their freedom have only their passions to see them through. . . . The Man with the Iron Heart Harry Turtledove

2008-07-22 What if V-E Day didn't end World War II in Europe? What if, instead, the Allies had to face a potent, even fanatical, postwar Nazi resistance? Such a movement, based in the fabled Alpine Redoubt, was in fact a real threat, ultimately neutralized by Germany's flagging resources and squabbling officials. But had SS Obergruppenführer Reinhard Heydrich, the notorious Man with the Iron Heart, not been assassinated in 1942, fate might have taken a different turn. We might likely have seen a German guerrilla war launched against the conquerors, presaging by more than half a century the protracted conflict with an unrelenting enemy that now engulfs the United States and its allies in Iraq. How might today's clash of troops versus terrorists have played out in 1945? In this imagined world,

Nazi forces resort to unconventional warfare, using the quick and dirty tactics of terrorism—booby traps, time bombs, mortar and rocket strikes in the night, assassinations, even kamikaze-style suicide attacks—to overturn what seemed to be a decisive Allied victory. In November 1945, a truck bomb blows up the Nuremberg Palace of Justice, where high-ranking Nazi officials are about to stand trial for war crimes. None of the accused are there when the bomb goes off, but their judges, all of them present and accounted for, are annihilated. Worse acts of terrorism follow all over Europe. Suddenly the Allies—especially the United States—must battle an invisible enemy and sacrifice countless lives in a long, seemingly pointless, unwinnable conflict. On the home front, patriotism corrodes, political fortunes are made and lost in the face of an antiwar backlash, and a once-proud country wonders how the righteous fight for freedom overseas has collapsed into a

hopeless quagmire. At once a novel of thrilling military suspense, intriguing alternate history, and profound insight into contemporary affairs, *The Man with the Iron Heart* is a tour de force by a storyteller of exceptional imaginative power.

In the Presence of Mine Enemies

Harry Turtledove
2013-08-29 Heinrich Gimpel is a respected officer with the Oberkommando Wehrmachts office in Berlin. His wife is a common hausfrau, raising his three precious daughters the same way he was raised - to be loyal, unquestioning citizens of the Third Reich, obedient to the will of the Führer. But Heinrich Gimpel has a secret. He is not, in fact, a member of the Master Race. He has been living a lie to protect his true identity as a Jew - and he's not alone. Throughout Berlin, Jews survive in secrecy...doing their jobs, caring for their families, maintaining the facade of perfect Aryans, and praying they will not be discovered. But a change is coming. Once There Was a Way Bryce Zabel 2017-12-05 The next novel from author Bryce Zabel, whose debut, *Surrounded by Enemies: What if Kennedy Survived Dallas?* won the coveted Sidewise Award for Alternate History. "We know The Beatles let it be, but what if they worked it out instead? This book gives life to every fan's fantasy. It's a great new adventure full of twists and turns that never were, but might have been." —Chris Carter, host, *Breakfast with the Beatles & Chris Carter's British Invasion* (Sirius/XM Radio) We all know the tragic story by now. After seven years as the most popular rock-and-roll group the world has ever seen, The Beatles—torn apart by personal and creative differences—called it quits in 1970, never to play together again. The fact that their contemporaries like the Rolling Stones are still playing today makes their ending even more painful. *Once There Was a Way: What if The Beatles Stayed Together?* is a story of another reality, the one we

wished had happened, where the Fab Four chose to work it out rather than let it be. This book is no mere fairy tale, but a chronicle crafted from the people and events of our own history, shaped to create a brand new narrative in which John, Paul, George, and Ringo find a way to stay friends and keep the band together.

Imagine there was more. Lots more. It's easy if you try. "Hold on to your hats, folks. You're in for quite a ride." —Harry Turtledove, alternative history author, *How Few Remain*, on *Surrounded by Enemies*

Sentry Peak Harry Turtledove 2000-09-01 THE STRANGEST CIVIL WAR NOVEL YOU EVER READ! When Avram became King of Detina, he declared he intended to liberate the blond serfs from their ties to the land. The northern provinces, where most of the serfs lived, would not accept his lordship. The hot north was a land of broad estates, whose noble overlords took the serfs' labor and gave back next to nothing. Those provinces left Detina, choosing Avram's cousin, Grand Duke Geoffrey, as their king in his place. Avram said he had inherited all of the kingdom, not just a part. He refused to let Geoffrey rule the north without a challenge. And the southron provinces, full of merchants and smallholders stood solidly behind him. So he

sent armies clad in gray against the north. Geoffrey raised his own army, and arrayed his men in blue made from the indigo much raised on northern estates to distinguish them from the southrons. Avram held the larger part of the kingdom, and the wealthier part, too. But Geoffrey's men were bolder soldiers. And the north, taken all in all, had better wizards than the southrons did. The war raged

for almost three years, until Avram's General named Guildenstern and his great lieutenant, Doubting George, moved against the northern army under Count Thraxton the Braggart and his commander of unicorn-riders, Ned of the Forest, which held the town of Rising Rock, close by Sentry Peak. . . .
