Girl Last Seen Heather Anastasiu 2016-03-01 Kadence Mulligan's star was rising. She and her best friend, Lauren DeSanto, watched their songs go viral on YouTube, then she launched a solo career when a nasty throat infection paralyzed Lauren's vocal chords. Everyone knows Lauren and Kadence had a major falling-out over Kady's boyfriend. But Lauren knows how deceptive Kadence could be sometimes. And nobody believes Lauren when she claims she had nothing to do with the disappearance. Or the blood evidence... As the town and local media condemns Lauren, she realizes the only way to clear her name is to discover the truth herself. Lauren slowly unravels the twisted life of Kadence Mulligan and sees that there was more to her than she ever knew. But will she realize she's unknowingly playing a part in an elaborate game to cover up a crime before it's too late?

Althusser and Law Laurent de Sutter 2013-03-05 Althusser and Law is the first book specifically dedicated to the place of law in Louis Althusser's philosophy. The growing importance of Althusser's philosophy in contemporary debates on the left has - for practical and political, as well theoretical reasons - made a sustained consideration of his conception of law more necessary than ever. As a form of what Althusser called 'Ideological State Apparatuses', law is at the forefront of political struggles: from the destruction of Labour Law to the exploitation of Patent Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important, and more contemporary, than ever. Indeed, the contributors to Althusser and Law argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life.

The Secret of Vesalius Jordi Llobregat 2017-11-16 Frankenstein meets The Shadow of the Wind in a Gothic thriller set in the diabolical city of fin-de-siecle Barcelona. Daniel Amat has left Spain and all that happened there behind him. Having just achieved a brilliant role in Ancient Languages at Oxford University and an even more advantageous engagement, the arrival of a letter - a demand - stamped Barcelona comes

like a cold hand from behind. He arrives back in that old, labyrinthine and near-mythic city a few days before the great 1888 World Fair, amid dread whispers of murders - the injuries reminiscent of an ancient curse, and bearing signs of the genius 16th century anatomist, Vesalius. Daniel is soon pulled into the depths of the crime, and eventually into the tunnels below Barcelona, where his own dark past and the future of science are joined in a terrible venture - to bring the secret of Vesalius to life. Gothic and gripping, this historical thriller makes of Barcelona a diabolical character - emerging out of the dark into a new electrical age, aflame with spirit, superstition and science. Published in eighteen countries, Jordi Llobregat's bestselling first novel mixes a passionate setting and cryptic mystery into a genre-crossing phenomenon.

The Occult War Emmanuel Malynski 2015-10-09 The Occult War - The Judeo-Masonic Plan to Conquer the World "Emmanuel Malynski spent thirty years of his life directly observing the development of the modern revolutionary movement around the world, devoting an almost visionary intelligence and clear-mindedness to this task. ...From our mutual collaboration this book has sprung, which explores the secret history of subversion, a terrifying history that has never been written before, but which is starting to come to light." - Leon de Poncins, from the Foreword "One of the great merits of this work is that it emphasises the metaphysical essence of the revolutionary movement, by showing how that which is being fought nowadays is not so much a political and social war as a religious one - a battle between two supra-national fronts more than one for the interests of individual nations, races, or parties; that what we are witnessing today, then, is a possibly decisive phase in the clash between two antagonistic worldviews, with more than simply human forces at work on both sides. Hence, this is not merely a book of rebuke and anti-Semitic or anti-Masonic polemic: rather it directly or indirectly offers the reader many cues to develop a positive, constructive, or re-constructive orientation focused on the essential rather than the accessory, and devoid of any attenuation." - Julius Evola, from the Introduction The original edition of this book was published in French in Paris in 1936. The Italian traditionalist philosopher Julius Evola translated the book into Italian, and published it 1939, adding his own Introduction and an additional chapter after an agreement with de Poncins. This translation is based on both editions, including Evola's Introduction and chapter as well. Evola also

made a number of interesting alterations to the text, occasionally adding, removing, or rewriting small parts of the French original. We have noted these changes in the footnotes, as they offer an insight into the different ways in which de Poncins and Evola approached the same issues.

Included in this edition is also two appendices: Evola's essay

'Considerations on the Occult War', which is a 1938 essay on this topic; and a review of the French edition of the book that was published by the first traditionalist philosopher, Rene Guenon, in 1936."

The GMO Deception Sheldon Krinsky 2014-06-03 Seventy-five percent of processed foods on supermarket shelves—from soda to soup, crackers to condiments—contain genetically engineered ingredients. The long-term effects of these foods on human health and ecology are still unknown, and public concern has been steadily intensifying. This new book from the Council for Responsible Genetics gathers the best, most thought-provoking essays by the leading scientists, science writers, and public health advocates. Collectively, they address such questions as: Are GM foods safe and healthy for us? Will GM food really solve world hunger? Who really controls the power structure of food production? Are GM foods ecologically safe and sustainable? Why is it so difficult to get GM foods labeled in the US? What kinds of regulations and policies should be instituted? How is seed biodiversity, or lack thereof, affecting developing countries? Should animals be genetically modified for food? How are other countries handling GM crops? Ultimately, this definitive book encourages us to think about the social, environmental, and moral ramifications of where this particular branch of biotechnology is taking us, and what we should do about it.

Mastering the Nikon D850 Darrell Young 2018-06-27 *Mastering the Nikon D850* by Darrell Young provides a wealth of experience-based information and insights for owners of the new D850 camera. Development Through the Lifespan Laura E. Berk 2013-08-05 Laura Berk's *Development Through the Lifespan* is relied upon in classrooms worldwide for its clear, engaging writing style, exceptional multicultural and cross-cultural focus, cutting-edge consideration of the interrelationships between heredity and environment, rich examples, and long-standing commitment to presenting the most up-to-date scholarship. This new edition continues to offer students research-based practical applications that they can relate to their personal and professional lives. Laura Berk, renowned professor and researcher, has revised the text with new pedagogy, a heightened emphasis on the interplay between heredity and environment, and an enhanced focus on many social policy issues, while emphasizing the lifespan perspective throughout. The latest theories and findings in the field are made accessible to students in a manageable and relevant way. Berk's signature storytelling style invites students to actively learn beside the text's "characters." Students are provided with an especially clear and coherent understanding of the sequence and underlying processes of human development, emphasizing the interrelatedness of all domains-physical, cognitive, emotional, social-throughout the text narrative and in special features. Berk also helps

students connect their learning to their personal and professional areas of interest. Her voice comes through when speaking directly about issues students will face in their future pursuits as parents, educators, health care providers, social workers, and researchers. As members of a global and diverse human community, students are called to intelligently approach the responsibility of understanding and responding to the needs and concerns of both young and old. While carefully considering the complexities of human development, Berk presents classic and emerging theories in an especially clear, engaging writing style, with a multitude of research-based, real-world, cross-cultural, and multicultural examples. Strengthening the connections among developmental domains and of theory and research with applications, this edition's extensive revision brings forth the most recent scholarship, representing the changing field of human development. Inside PixInsight Warren A. Keller 2018-11-13 PixInsight has taken the astro-imaging world by storm. As the first comprehensive postprocessing platform to be created by astro-imagers for astro-imagers, it has for many replaced other generic graphics editors as the software of choice.

PixInsight has been embraced by professionals such as the James Webb (and Hubble) Space Telescope's science imager Joseph DePasquale and Calar Alto's Vicent Peris, as well as thousands of amateurs around the world. While PixInsight is extremely powerful, very little has been printed on the subject. The first edition of this book broke that mold, offering a comprehensive look into the software's capabilities. This second edition expands on the several new processes added to the PixInsight platform since that time, detailing and demonstrating each one with a now-expanded workflow. Addressing topics such as PhotometricColorCalibration, Large-Scale Pixel Rejection, LocalNormalization and a host of other functions, this text remains the authoritative guide to PixInsight.

Ming Tea Murder Laura Childs 2015-05-05 It's scones and scandal for Indigo Tea Shop owner Theodosia Browning in the latest from the New York Times bestselling author of *Steeped in Evil...* Normally Theodosia wouldn't attend a black tie affair for all the tea in China. But she can hardly say no to her hunky, handsome boyfriend, Max, who directs public relations for the Gibbes Museum in Charleston. Max has organized an amazing gala opening for an exhibit of a genuine eighteenth century Chinese teahouse, and the crème de la crème of Charleston society is invited. In the exotic garden staged in the museum's rotunda, a Chinese dragon dances to the beat of drums as it weaves through the crowd. The guests are serenaded by a Chinese violin as they sample an assortment of tempting bites. And to give them a memento of the occasion, there's even a photo booth. But Theodosia makes a grim discovery behind the booth's curtains: the body of museum donor Edgar Webster. While Theodosia prefers tea service over the service of justice, this case is difficult to ignore—especially after Max becomes a suspect. Now she must examine the life of the fallen philanthropist and find out who really wanted him to pay up... INCLUDES DELICIOUS RECIPES AND TEA TIME TIPS!

Odes Sharon Olds 2016-09-08 'Interspersed with acts of breathtaking linguistic daring.' Charlotte Mendelson, Observer Book of the Year Opening with a powerful and tender 'Ode to the Hymen', Sharon Olds uses this age-old poetic form to address many aspects of herself, in a collection that is centred around the female body and female pleasures, and touches along the way on parts of her own story which will be familiar from earlier works, each episode and memory now burnished by the wisdom and grace of looking back. In such poems as 'Ode to My Sister', 'Ode of Broken Loyalty', 'Ode to My Whiteness', 'Blow Job Ode', 'Ode to the Last 38 Trees in New York City Visible from This Window', Olds treats us to an intimate self-examination that, like all her work, is universal and by turns searing and charming in its honesty. From the early bodily joys and sorrows of her girlhood to the recent deaths of those dearest to her – the 'Sheffield Mountain Ode' for Galway Kinnell is one of the most stunning pieces here – Olds shapes her world in language that is startlingly fresh, profound in its conclusions, and life-giving for the reader.

Measuring Self-concept Across the Life Span Barbara M. Byrne 1996 [This book provides a] review of self-concept measures that can be used with individuals across the life span, from preschool through late adulthood. These measures were selected according to the prevalence of their use in research and practice, their psychometric soundness, the strength of their theoretical base, and their demonstrable utility in a variety of research and practice situations. For each measure there is a description of the instrument, the target population, the scale structure, administration and scoring procedures, normative data, and related psychometric research, as well as an evaluative summary and source information. Byrne also provides a comprehensive review of the literature related to 7 empirically testable models of self-concept. Finally, the author identifies the most

important psychometric issues related to measuring self-concept, describes the limitations associated with the current state of self-concept measurement, and points to promising directions for future research and application.

Gin and Tonic and Cucumber Rafaële Germain 2009 At thirty-two, Marine Vandale is still waiting for true love. The kind of love that takes your breath away, knocks you on the ground, and makes you scared and crazy all at once. "You're certainly not going to find it if you spend all your time with three guys," her mother likes to remind her. It's just that Marine, her ex Laurent, Jeff her roommate, and their best friend Julien are inseparable. Together, they're trying to navigate the troubled waters of their thirties, become real adults and tame love. But what used to seem like child's play is becoming less and less of a game, and today's mistakes are not as meaningless as the ones they made in their twenties. But each one in his or her own way continues to hope. And from date to date, from man to man, through a thousand situations she describes as "summer stock theatre," Marine persists in believing that one day she'll prove to her mother that you can't fight love.
