Crisis Management in the Age of Social Media Louis Capozzi 2013-07-02 Social media has fundamentally changed the contract between institutions and the public. Today, people expect a conversation, not a one-way diatribe. That, combined with the speed of the Internet, changes the game for many companies in anticipating, managing, and ultimately avoiding an "instant crisis"—an instant crisis example is when Verizon added a \$2 charge for all their customers; one hour later 100,000 signatures appeared on a Twitter petition, and soon Verizon was in the middle of a huge public relations crisis. Inside this book, you'll learn just how to manage this type of situation and meet the challenges of social media. Each chapter includes a description of a crisis, the timeliness of a good response, the effectiveness of this response, and an assessment of what works and what doesn't. Some examples of social media crises include Apple Computer, Netflix, JetBlue, Bank of America, Fed Ex, and public figures such as Anthony Weiner, Ashton Kutcher, and Jon Bon Jovi.

Pediatric Neuro-Ophthalmology Michael C. Brodsky 2012-12-06 Pediatric Neuroophthalmology details the diagnostic criteria, current concepts of pathogenesis, neuroradiological correlates, and clinical management of a large group of neuroophthalmic disorders that present in childhood. Surprisingly distinct from neuroophthalmic disorders afflicting adults, this set of diseases falls between the cracks of most ophthalmology training, and thus, warrants a practical, clinical guide for the practitioner in ophthalmology - the neuroophthalmologist, pediatric ophthalmologist, general ophthalmologist - as well as neurologists and for residents. The authors, leading pediatric ophthalmologists, have taken this difficult subject matter and developed an accessible, user-friendly manual with a detailed approach to the recognition, differential diagnosis, and management of pediatric neuroophthalmologic disorders.

Law and Performance Austin Sarat 2018 "In considering law through the lens of performance studies, the contributors in this volume emphasize the embodied, affective, and reiterative qualities that move law off the printed page and into the thick world of lived experience. They consider the blurring of lines between performance and the enactment of law, the transformative exchanges between the law and its many and varied stagings, and the impact or resonance of performativity in situations where innocence and guilt may be determined."--

Dearest of Geniuses Sandra L. Katz 2003 Dearest of Geniuses is the first definitive biography of one of America's first successful female architects, Theodate Pope Riddle (1867-1946). In addition to designing schools and private homes in Connecticut and New York, Theodate designed and supervised the reconstruction of President Theodore Roosevelt's Birthplace in New York City. Theodate's masterpiece is the unusual medieval campus of Connecticut's Avon Old Farms School, where she served as founder and pioneered a progressive curriculum far ahead of its time. The school continues to flourish today and receives ongoing acclaim as an architectural tour de force and as an innovative educational institution. According to writer and critic Brendan Gill, Theodate Pope Riddle was one of the ten most distinguished American women of the 20th century. Her friend, famed psychologist Carl Jung, saw her as an "intuitive" woman who trusted her instincts, ignored raised eyebrows, and courageously forged ahead despite the restrictions of her day. Using Theodate's extensive correspondence, girlhood diaries, journals, memoirs, transcripts of seances, and sittings with mediums, as well as interviews, family letters, and other sources, author Sandra L. Katz re-creates the life of this extraordinary woman.

Charter School Outcomes Mark Berends 2017-09-25 Sponsored by the National Center on School Choice, a research consortium headed by Vanderbilt University, this volume examines the growth and outcomes of the charter school movement. Starting in 1992-93 when the nation's first charter school was opened in Minneapolis, the movement has now spread to 40 states and the District of Columbia and by 2005-06 enrolled 1,040,536 students in 3,613 charter schools. The purpose of this volume is to help monitor this fast-growing movement by compiling, organizing and making available some of the most rigorous and policy-relevant research on K-12 charter schools. Key features of this important new book include: Expertise - The National Center on School Choice includes internationally known scholars from the following institutions: Harvard University, Brown University, Stanford University, Brookings Institution, National Bureau of Economic Research and Northwest Evaluation Association. Cross-Disciplinary - The volume brings together material from related disciplines and methodologies that are associated with the individual and systemic effects of charter schools. Coherent Structure - Each section begins with a lengthy introduction that summarizes the themes and major findings of that section. A summarizing chapter by Mark Schneider, the Commissioner of the National Center on Educational Statistics, concludes the book. This volume is appropriate for researchers, instructors and graduate students in education policy programs and in political science and economics, as well as in-service administrators, policy makers, and providers.

Twelve Years a Slave Solomon Northup 101-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

101 Solution-Focused Questions for Help with Trauma Fredrike Bannink 2015-10-19 A step-by-step guide to conducting successful solution-focused therapy for survivors of traumatic experiences. This book aims to help therapists working with clients who struggle with trauma by offering them solution-focused (SF) viewpoints and skills. The book invites all professionals to change their focus from what is wrong to what is right with their clients, and from what isn't working to what is working in their lives. The book contains 101 solution-focused questions (and more) for help with trauma, with a focus on the clients' preferred future and the pathways to get there. As Insoo Kim Berg put it in her foreword for Fredrike Bannink's highly successful 1001 Solution-Focused Questions: Handbook for Solution-Focused Interviewing, "SFBT is based on the respectful assumption that clients have the inner resources to construct highly individualized and uniquely effective solutions to their problems." From the more than 2,000 questions she has collected over the years, Bannink has selected the 101 most relevant for each subject. Much of the material in the 3-volume set is unique and did not appear in the earlier work, inviting therapists to open themselves to a new light on interviewing clients.

Thomas Mann's The Magic Mountain Rodney Symington 2011-09-22 Thomas Mann's novel The Magic Mountain presents a panorama of European society in the first two decades of the 20th century and depicts the philosophical and metaphysical dilemmas facing people in the modern age. In the years leading up to the First World War, the fundamental elements of human nature were thrown into sharp relief by the political tensions that resulted in the ultimate metaphor for the innate destructiveness of humankind: the War itself. If such a war is the true expression of human tendencies, what hope is there for the future? Through the figure of the main character of the novel, Thomas Mann explores the alternative philosophies of life available to human beings in the modern age, and invites the reader to undertake a personal odyssey of discovery, with a view to adopting a positive approach in an era that seems to offer no clear-cut answers. This book is a comprehensive commentary on Thomas Mann's seminal novel, one of the key literary artefacts of the 20th century. The author has taken upon himself the task of explaining all the references and allusions contained in the novel, and of providing readers who know little or no German with enough explanatory comment to enable them to understand the novel and extract the maximum reading pleasure from it.
